

Steven Zaidman

Air Traffic Organization

Vice President, Technical Operations

As the Air Traffic Organization's (ATO) Vice President for Technical Operations, Steven Zaidman is responsible for the delivery of maintenance services to the customer. He is also responsible for providing communication and navigation services to support ATO's line service units.

Since joining the Federal Aviation Administration (FAA) in 1974, Zaidman has served in several executive positions. These positions include the Director of the Office of System Architecture and Investment Analysis, Deputy Director of the Office of Communications, Navigation, and Surveillance Systems, and Director of the FAA's Research and Development Service.

Zaidman served as the FAA's Associate Administrator for Research and Acquisitions from 1998 to 2002. Most recently, Zaidman served as the FAA's Director of Airway Facilities Service.

Zaidman graduated from Brooklyn College in 1968 with a bachelor's of science degree in mathematics. In 1974 he earned a master's of science degree in operations research from George Washington University.
